CATALOGUED BY SCOTT & CO.

NEW YORK:

WM. B. SMYTH, PRINTER, 7 NEW CHAMBERS STREET.

1880.

PREFACE.

Many collectors who have not had experience in purchasing at auction sales, on account of living at too great distance from New York, may have their orders executed by the auctioneers, Messrs. Scott & Co., or other dealers, for a commission of 10 per cent. on amounts under $100 —over $100 5 per cent.—a uniform charge of 50 cents made on any amount under $5.

In reference to the method of selling at auction, we would say that each lot is sold to the highest bidder, at so much for each stamp in the lot, so if you desire a lot of stamps which contains 10 pieces and you wish to pay $1.00 for it, you should bid 10 cts. each. Always state your highest price, relying on the honor of those you employ to make the purchases for you at the lowest possible figure.

The Stamps will be on exhibition at the Auction Rooms, on the day of Sale, from 10 A. M. to 5 P. M.

SCOTT & COMPANY.

New York, March, 1880

A REVISED LIST

OF ALL

Postage Stamps and Stamped Envelopes

This is the only work of the kind ever published in America, and in the short space of two months has become the standard of all English-speaking stamp collectors. It contains an accurate list of every postage stamp ever issued, minutely describing every variety of color, water mark and paper, together with all the minor details concerning the different dies of the same stamp. It is fully illustrated with about fifteen hundred engravings, and besides being the latest is the most accurate work of the kind ever printed. Numerous notes explain every doubtful point in Philately, and give many interesting details concerning the causes which led to the issue or suppression of noted stamps. Mr. Coster's valuable monograph on the United States locals is added entire, forming a work which no collector who has outgrown the boy period of pasting stamps in a copy book can afford to be without. It is not a price list or a dealer's advertisement in any sense of the word.

Large 8vo, 400 pages. - - Cloth, $2.50.

NOTE.—These stamps were type set in the colony, for use temporarily, each one being authenticated by the postmaster's initials, and as a further precaution were not sold to the public, but affixed to the letters by the post-office clerks. They are among the rarest stamps known.

CRITIQUES.

"The work is profusely illustrated, and forms a valuable book of reference for postage stamp collectors."—*The N. Y. Daily Graphic*, June 26.

"Will be highly appreciated by philatelists the world over. It is the first complete catalogue of all stamps ever issued that has been made for collectors, and if it were a catalogue only, it would be of great value, but it is much more. The 400 broad pages contain the full history of every issue of every government, and a full description of every stamp, both government and private. Fifteen hundred engravings illustrate the text, and a complete index makes the information readily accessible."—*The N. Y. World*, June 21.

"The book is decidedly remarkable for the industry and patience displayed in the compilation of facts concerning postage stamps and stamped envelopes all over the world. To those who have paid no special attention to this curious study this catalogue will be a revelation, for though there are over one thousand five hundred fac-similes of stamps scattered over the 410 pages contained between its covers, they form only a tithe of the whole, for the catalogue describes several thousand varieties. Turning over the leaves of Mr. Scott's catalogue we are compelled to admire the system he has adopted, while realizing the time and study he must have devoted to his subject. The result is a manual that must be a great help to old collectors and indispensable to beginners. Clearly printed in large type and handsomely bound, the book will undoubtedly become a standard work of reference."—*N. Y. Herald*, June 30th, 1879.
